SUMMARY:

• I am a results-oriented professional aiming to establish a career with leading corporations in a high-tech environment, collaborating with committed and dedicated teams. I am eager to unlock my full potential and contribute as a key player in a challenging and innovative setting.

EDUCATION:

Reva University Bangalore.
B.Tech - Completed 2022.
B.Tech – 9.1 CGPA

SC Gurukul PU College Bidar, Karnataka.
Pre-University – Completed 2018.
PUC – 83.5%

SNS High School Basavakalyan, Karnataka.
State board – Completed 2016.
SSLC – 90.54%

PROFESSIONAL EXPERIENCE:

KODNEST
Intern
(Mar 10, 2024 - Present)
I am currently gaining valuable experience as an intern at Kodnest, where I am developing my skills as a full-stack developer. During this internship, I am actively engaged in courses covering React.js, JavaScript, HTML5, CSS3, SQL, and Java. I am eager to leverage this experience and pursue a role as a Software Developer.

SOBHA Limited
UI/UX Designer
(Oct 14, 2022- May 18, 2024)
Passionate and motivated Junior UI/UX Designer with six months of hands-on experience in creating user-friendly and visually appealing digital interfaces. Skilled in wireframing, prototyping, and visual design with proficiency in tools such as Figma, Sketch, and Adobe XD. Eager to contribute to innovative design projects and collaborate with cross-functional teams to enhance user experience. Strong foundational knowledge in user research and usability testing, with a commitment to continuous learning and professional growth.

PROJECTS:

Amazon Clone Project
Description: Developed a clone of Amazon using:
Front-end: React, HTML, CSS, JavaScript, Redux
Back-end: Node.js, Express.js
Database: MongoDB
Achievements:
- Completed the project in 2 hours.
- Implemented core features like user authentication, product listings, and cart management.
- Ensured responsive design and user-friendly interface.
